Rigathi Gachagua & William Ruto Must Retire from Politics Now

If you love Kenya, then you know William Ruto should be removed from office as soon as possible.

You must also know Rigathi Gachagua should not be anywhere near political power.

The only difference between the 2 is that one is ruling the country & stealing mercilessly; while the other wishes he was the president & stealing taxpayers' money mercilessly.

Similarities between Ruto & Rigathi

1. They both got their big breaks by committing evil acts against the people of Kenya.

Ruto: His break was when he was made an official of YK-92 (in 1991-92), a political outfit funded by the state, whose job was to use taxpayers' money to buy political support for the ruling party.

It is YK-92 that started major corruption in Kenya politics - which is huge destabilising factor for the country, even today.

Rigathi: His break was in the 1990s, when as District Officer (D.O.) in Molo, he enthusiastically led the violent eviction of Kikuyu families (his own tribe), from their homes in Molo and surrounding areas (after being accused of supporting the opposition).

He was promoted, and introduced to schemes to make money from 'selling air' to government departments.

2. Both believe the best place to talk politics is in church.

3. They both believe that, to control Kenyans, you need to control churches first - by using money to fund pastors directly, and also their projects.

4. Both have been indicted in courts of law for theft.

5. Both are billionaires, but cannot account for source of their wealth.

Shadowy Movement Propping-up Rigathi in Mt Kenya

Around 10 years ago, there emerged a Shadowy Movement that praised Ruto continuously in Mt Kenya region.

This Shadowy Movement operated both on the ground in the Mountain region, and was also very prominent on social media.

They pushed the PsyOp that, everything good the government did, was done by (or because of) Ruto; and everything bad in govt, was done by other people, and Ruto was not involved in anyway.

Due to the Shadowy Movement bombarding Mt Kenya people with this psychological manipulation continuously, by 2020, a significant population of the region had started viewing Ruto as being akin to a deity - a 'gift from above'.

It was only after Ruto came to power, and started destroying their livelihoods, that Mountain people started saying they were 'lied to'/'manipulated' to like and vote for him.

Mt Kenya people did not just vote for Ruto - they also voted for people who were most loyal to him, as MCAs, MPs, Senators & Governors.

That is why, at least 90% of MPs from Mt Kenya are either extremely corrupt, hopelessly incompetent, or both.

When combined with fact that, on average, about 50% of MPs from other regions also possess these characteristics, that is why it appears as if the country has no functional parliament.

The same Shadowy Movement is now promoting Rigathi in Mt Kenya region - and also on social media - the same way they did for Ruto.

The Shadowy Movement propping-up Rigathi wants Mt Kenya to continue having similar useless MPs in future (because they are easy to control).

They want to create a situation where, all a politician from the region will need, in order to become MP (or other political position), is to be subservient to Gachagua.

The more crooked a politician is, the more likely he/she will prostrate themselves before Rigathi.

For instance, Mithika Linturi, is being positioned as Rigathi's 'point-man' in Meru.

Linturi's qualifications?

He is so shamelessly corrupt, that he swindled his own mother-in-law.

Fast forward to 2025: Ruto is extremely unpopular countrywide.

But his unpopularity is even more extreme in Mt Kenya region, because many people there really believed he was some kind of 'messiah' - only to discover he was the opposite.

The same Shadowy Movement that made Ruto popular in the Mountain, know that it is not possible to do that now.

And Rigathi is their Plan-B.

Plan-B (i): Why they are Pushing so Hard to make Rigathi 'Mt Kenya Kingpin'

Rigathi Gachagua does not speak 3 sentences without mentioning '2027', or '2027 elections'.

Despite every reasonable Kenyan knowing it is not possible to have free and fair elections while Ruto is in power, Rigathi doesn't seem to worry about that.

Why?

Rigathi's obsession with '2027 elections' is so severe that, he has claimed many times - publicly - that when Gen-Z/Gen-Zote demand 'Ruto Must Go', they mean he must be defeated in '2027 elections'.

That is a lie, obviously.

But why does Rigathi find it necessary to lie about such a serious matter?

It is because, if the status quo is maintained, and the country goes to 2027 'elections', whatever way the vote goes, Rigathi will be a big winner (Shadowy Movement will also be major winners).

If Kenyans become distracted by Rigathi's shenanigans, and the country goes to 2027 'elections' with Ruto still in power, there will be 2 possible outcomes - all good for Rigathi (and the Shadowy Movement), but very bad for the country.

Plan-B (ii) 2027 'elections' Scenario 1

Ruto's foreign backers realise he is too unpopular that, even with the bogus 3-5 million votes (from non-Kenyans issued with Kenyan IDs), he would still need to rig heavily to 'win' the election.

They support/push for Rigathi to control Mt Kenya vote through his so-called 'Itungati Movement'.

They also advice Rigathi to support a clean patriot from another community for presidency.

But when it comes to Mt Kenya MPs, Senators etc, almost all would be from Rigathi's party - due to the work they will have done to make him popular, like they had done with Ruto previously.

At least 9 out of every 10 Kenyans wishes the president was not corrupt.

Therefore, when Rigathi (who is extremely corrupt) supports a clean presidential candidate, people will think 'he must have chosen not to be corrupt again'.

The clean candidate wins the presidency (is allowed to win, because Ruto's regime can rig as much as they want, because they can issue as many IDs to foreigners as needed to 'win' election & also control electoral commission).

Ruto's foreign backers demand the clean presidential candidate be allowed to win, because they know they would be able to remove him from power shortly (read on).

The new incorrupt president starts cleaning up government.

But you cannot seriously fight corruption in Kenya without targeting Ruto, Rigathi and their allies.

Closing avenues for corruption - especially blocking highly inflated govt tenders - would hurt Ruto & Rigathi's allies very hard.

Ruto's & Rigathi's allies start crying 'persecution'.

Rigathi controls Mountain MPs; Ruto controls North Rift MPs.

If they get support from just half of ODM MPs, they would have the numbers to impeach the Clean President.

The incorruptible, clean President will have only 2 options:

(a) Continue fighting corruption - gets impeached.

Ruto and Rigathi get back to power, as allies.

(b) Cuts a deal with ODM & slows fight against corruption (most likely scenario).

Kenyans feel betrayed.

The country becomes extremely unstable.

Demos follow.

Plan-B (iii) 2027 'elections' Scenario 2

With just 20% support countrywide, Ruto steals the vote, is declared the 'winner', and quickly sworn in as president.

Protests erupt across the country.

Ruto cuts a deal with Rigathi.

The Mountain MPs, who would have been voted in by people who did NOT vote for Ruto, now declare their support for Ruto.

Ruto will have support of parliament and security services.

Just like the case currently.

And Kenya would become kaput.

Message to Rigathi Gachagua

As you can see, all options with you playing a major part in (Mt Kenya) politics, results in Kenyans losing very badly.

You might say it is your right to be a politician.

True.

However, you are being propped-up by shadowy people (and unlike most Kenyans, you KNOW who they are).

Therefore, you being in politics means millions of Kenyans continue to live miserable lives - courtesy of your political benefactors, the Shadowy Movement.

If you love Kenya, you must QUIT politics.

Now.

You are very rich.

There are many other things you can do, outside politics.

Think about others.

For once.
